

Current Guidelines & Safety Protocols for Frozen Jr. 2021

- Practices in March and April will be from 2:10pm-4:00pm Mondays-Thursdays but not every cast member is called each day. It will depend on the Rehearsal Schedule and what scene we are working on for the day. Students must get rides to and from practice.
- Student's temperatures will be checked at the front office at 2:10pm upon arrival for after school practices before heading down to the choir room or stage for rehearsals.
- Students must always wear masks and participate in frequent hand washing and or visiting hand sanitizer stations after using props and other musical materials.
 - Special singing masks will be provided to students to wear during practice. Students must maintain these masks in good quality and use them for every day of rehearsal. They should be hand washed with detergent once a week and air dried (no washer or dryer). Replacement PPE masks will cost \$25.00 each.
- Students must stay in their own personal space while in practice. Students will be assigned clear spaces.
- Students should bring their own water bottle to rehearsal. I will also give snack time while students are in assigned seats at a social distance following the same policy as lunch hours in school.
- Students must pass the morning "Clear to Go" app before coming to practice in the afternoon. Not passing the "Clear to Go" app follows the same protocols as during the school day.
- If a student needs to quarantine for a period of time, participation via TEAMS video conferencing will be available for cast members to stay on track with their peers in rehearsals.

At this time, a LIVE performance for an audience is not permitted, thus we will be spending rehearsals in the month of May RECORDING each Scene of the show and putting together a Streamed Production, like LOHS's Winter play production this year. Rehearsals in May will most likely go longer than 4:00pm to accommodate students getting into costumes, make-up and hair and then filming our best cuts of each scene! Please plan on Scene Recording Days going until about 5:00pm. A rehearsal schedule is currently being made for May and adjustments will most likely be needed as we get closer to recording days.
